Why we need this?

No.1

VS

Put other products on 12 degree colour cream for 30 mins (after wash)

Put other products on 12 degree colour cream for 45 mins (after wash)

Nanotechnology, non-staining with color cream

No.2

With rubber in the handle and inside the clip, it will avoid handle slipping and keep hair in place

No.3

With the little dot design inside the hair clip, it does not produce indentation on hair

APPAREL

Full Pint Chameleon Round Brush

Recommend ★★★

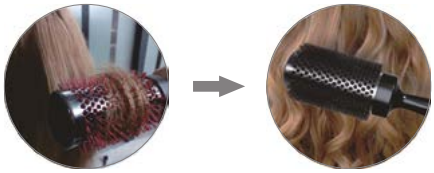

Step 1: Allow Hair to air dry partially

Step 2: Section off strands, wrap and blow dry

Take your first section of hair and place the round brush underneath, then wrap the hair around the brush. Turn on your blow dryer, direct itat the top side of the section. When the bristles are heat up, their colors will get changed from brown to red. As you blow dry, slowly move the blow-dryer further down the section of hair.

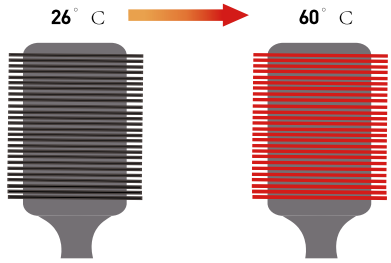

Step 3: Blast hair with cool air.

Utilize cool air. Giving your hair a quick blast of cool air will set your style in place and help ensure you don't immediately lose they shape and body you just created.

When bristles are heat up
